Saddleback Valley Students Help Bring Water to Northern Uganda

Led by the Ann Mundell-Noel family; Serrano Intermediate School, El Toro High School, CR&R Inc, and Peppinos Restaurant joined forces to recycle and raise enough funds to supply a deep water well to the people of Uganda. (See picture bottom right). Everyone found a way to help; CR&R donated the semi-trailer recycle bin, Peppinos supplied schools with recycle containers, and the students collected the water bottles. Thanks to their efforts, over 2,000 people are now benefiting from the gift of clean water!

**A Special Thank You to:
Peppinos Restaurants and
CR&R Recycling Company**

Just this much more!
Students took the challenge and finished filling the trailer in one week!

Deep well in the village of Acengryeny

Spring Gala a Success!

Our spring Gala was an evening of celebration with over 100 of our supporters attending. The event was hosted by **Steve and Sheryl Goodman** at their Laguna Hills residence. Pastor Johnson Ogema detailed both the current state of crisis in Northern Uganda as well as relayed stories from villagers and the impact water has made in their lives. Every attendee received a DVD and brochure that they could use to spread the word to their friends.

Featured Volunteer

Debbie Pekar

Debbie has found her way to help in the form of merchandising and sales. She has been involved in every step of the process: product selection, design and distribution. Debbie, thank you for all that you do.
